## Introduction

The Blackmar-Diemer Gambit (BDG) evolved from an idea of Armand Blackmar (1826-1888), who originated the Blackmar Gambit, 1.d4 d5 2.e4 dxe4 3.f3, in 1881. Emil Diemer (1908-1990) improved upon the idea in 1932 with 1.d4 d5 2.e4 dxe4 3.Nc3 Nf6 4.f3. The BDG is popular among postal and Internet users who like to play gambits, as well as over-the-board players who are very well prepared.

The BDG can be derived from other openings. Such openings as the French Defense, Caro Kann, Center Counter, Nimzovich Defense, Dunst Opening, and Veresov's Opening has transpositions into the Blackmar-Diemer Gambit.

White's strategy, as in most gambits, is to immediately start tactical play. The gambit can be very dangerous against an opponent who does not know the best defense. White sacrifices a pawn to open up the game. There are plenty of miniatures for both sides of this popular gambit.

This collection of over 500 games deals with the shorter games of the Blackmar-Diemer gambit. All games are 20 moves or less. This compilation includes games from novice players to grandmasters, from postal players, to over-the-board-play, to Internet play. Light notes are added to illustrate improved lines, threatened moves, or likely continuations.

**The Blackmar-Diemer Gambit is popular because it is a basis for attacking chess. As a result many of these games are fun to play and likewise entertaining to see. Author Bill Wall has collected five hundred examples of this scintillating opening, featuring games with fewer than twenty moves. In this opening, errors are punished quickly and firmly! The "Miniatures" series now extends to seventeen volumes and are popular around the world and eagerly sought by those interested in seeing what happens when a player does not follow the recommended lines. You will learn what to do, and enjoy the experience.**
